SKILLS

- Python
- Machine Learning
- NLP
- Deep Learning
- Data Structure
- Algorithms
- MYSQL
- Java
- C
- HTML
- CSS
- Angular
- JavaScript

LANGUAGES

English
Professional Working Proficiency

Telugu
Full Professional Proficiency

STRENGTHS

- Problem Solving
- Quick Learner
- Leadership

EDUCATION

Bachelor of Technology
Madanapalle Institute of Technology and Science
06/2018 - 06/2022   *Computer Science and Engineering(8.8CGPA)*

Intermediate
Sri Chaitanya College
06/2016 - 05/2018   *MPC-97.4%*

WORK EXPERIENCE

Machine Learning Intern
Refactor Academy
10/2022 - 01/2023

Projects
- Developed a Linear Regression model to predict the best model which gives high accuracy and identifying the features which are more important
- Developed many ML models like Diabetes Prediction, Spam Mail prediction, Fake News Prediction, Heart Disease Prediction, etc. and deployed some of them publicly

Full Stack Intern
Wipro
03/2022 - 06/2022

Project
- Food Box : Food Box is a dynamic and responsive online food delivery web application for ordering food items of different cuisines from a restaurant. Java, Angular, JS, HTML, CSS, Spring Boot, etc. are used

PERSONAL PROJECTS

Image Captioning using attention models
Image caption generator is a process of recognizing the context of an image and annotating it with relevant captions using deep learning, and computer vision. It uses CNN(Resnet50) and RNN(LSTM)

Breast Cancer Classification using Machine Learning
In this Machine Learning project ,model will analyze and classify Breast Cancer(Malignant or Benign). In this Project Logistic Regression is used

Movie Recommender System
The goal of movie recommendation systems is to filter and predict only those movies that a corresponding user is most likely want to watch

Bangalore House Price Prediction
In this machine learning project ,we developed a model in such a way that it will predict the price of the house based on the area, number of bed rooms and bathroom

CERTIFICATES

Completed a 6 week course on "AI for Everyone" from Coursera.

Completed a 7 week course on "Python for Every Body" from Coursera
